investment in expanding the dairy and some fresh energy and capital it is estimated that it could produce around 1.8 million litres per annum, which would generate a very attractive income.

Originally the farm was stocked exclusively with Illawarra cattle, and over the years this has evolved to a variety of breeds, with quality always the focus. Approximately 350-400 head of cattle are currently on the property; there is also an on-site Manager who oversees all farm and dairy operations on a daily basis. The dairy will milk 18 cows at once on a 9 a-side herringbone configuration, there is also a loyal staff of 5-6 dairy workers who attend milking daily.

Every acre of grazing is highly improved pasture, and the owner is a surveyor, so the survey pegs are extremely accurate, very helpful if reconfiguring paddocks, erecting new fencing etc. At the highest point of the property with a perfect north-east aspect and 360 degree views there is the main residence; a large 5 bedroom, 3 bathroom family home that is in need of modernising and refurbishment, it is perfectly positioned on the property.

There is abundant water, pumped from the Stanley River, and one section of the property boasts three miles of river frontage, whilst another has three quarters of a mile; the irrigation system is extremely efficient and has kept the pastures well-watered and lush, even in the driest of seasons.

Whilst currently a working dairy farm and suiting a variety of agricultural or horticultural endeavours, there may be potential (with council approval) to explore other options, including eco-tourism, perhaps weekend farm stays, or retreat cabins.

Located just 4.52 kilometres to the local convenience store, Peachester has a local school, and the townships of Beerwah and Woodford with their amenities are less than a 10 minute drive. With Brisbane only an hour away, this could also make a delightful weekend country retreat for an urban professional,

with the on-site Manager running the day to day operations of the farm.

Long term owners purchased in 1978, but have since retired and relocated...so time to sell, and there is a serious commitment to secure a sale.
