increased to \$380); and Unit 3 - is a three bedroom unit; each unit has its own alfresco deck or verandah and separate entry.

The building is located at the very front of the block and there is vacant grassy space at the rear. Known as "Desmond House" - this building was owned by St Joseph's Catholic Church until more recent years and had been run as a hostel; it is a well-know landmark highly visible as you exit town to the south.

Under the Medium Density Residential zoning there is potential, subject to council approval, to build multiple dwellings, which will attract the attention of builders/developers; there is a shortage of housing on the Sunshine Coast, particularly affordable housing, so there is a very real opportunity here for an investor/developer.

Another option is to purchase and retain 'as is' for now, an investment with a holding income until the purchaser feels it's an opportune time to on-sell in the future for increased profit. There has been talk for many years of rail duplication to bring a genuine express train service from Nambour to Brisbane; when this eventually occurs property prices, along with demand, are expected to surge.

Investor owners are motivated to sell and offers are invited via tender. Contact Agent to arrange a private inspection or for further information.
